AUTOALLIANCE INTERNATIONAL (SRN: N0929), FLAT ROCK, WAYNE COUNTY. Written comments are being accepted on the draft Administrative Consent Order (ACO) to resolve odor and other violations of Act 451 and the draft Permit to Install (PTI) No. 89-07 for a new plastic parts coating exhaust stack and the ducting of currently uncontrolled topcoat emissions to the existing control system. Additionally, the revisions to the existing permit will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-N0929-2003. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The facility is located at 1 International Drive, Flat Rock, Michigan. The responsible official for the source is Gary Roe, AutoAlliance International, Inc., 1 International Drive, Flat Rock, Michigan 48134. Draft ACO, ROP, and New Source Review public notice documents can be viewed on the Web at www.michigan.gov/deqair. Written comments for either the draft ACO or the PTI should be sent to William Presson, Acting Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan 48909. Public comment will be taken through August 1, 2007, and a public hearing and informational session will be held on August 1, 2007 (see August 1 listings in this calendar). Information Contacts: **Mike Kovalchick**, Air Quality Division, 517-335-6343 (regarding the ACO); **Stephen Zervas**, Air Quality Division, 517-373-7083 (regarding the PTI). OZONE REDESIGNATION PETITION AND MAINTENANCE PLAN FOR SOUTHEAST

MICHIGAN. The DEQ has prepared a proposal for a redesignation petition and maintenance plan for the eight counties of Southeast Michigan in association with the 8-hour National Ambient Air Quality Standards (NAAQS) for ozone. At the conclusion of the 2006 ozone season, all monitors in Southeast Michigan measured air quality that meets the NAAQS for ozone. The DEQ plans to submit the redesignation petition and maintenance plan for Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties to the U. S. Environmental Protection Agency to formally request that Southeast Michigan be redesignated to attainment and classified as “maintenance” under the 8-hour NAAQS for ozone. Public comment will be taken through July 11, 2007, and a public hearing will be held on July 11, 2007 (see July 11 listing in this calendar). LEGACY LAND DEVELOPMENT INC. (LEGACY) IS THE HOLDER OF INTEREST OF A COMMONS AREA AND CERTAIN LOTS THAT ARE PART OF AN 18.35 ACRE DEQ CONSERVATION EASEMENT (EASEMENT) LOCATED IN THE MAPLE CREEK ESTATES

SUBDIVISION #2, CITY OF NEW BALTIMORE, MACOMB COUNTY. The easement was originally required as part of a DEQ Consent Agreement (April 2001) in order to resolve a wetland violation. A revised Consent Agreement (December 2006) requires an amendment of the easement and includes the creation of 5.85 acres of new wetland within the easement and preservation of 11.8 acres of remaining wetland. Legacy requests the modification to meet the city of New Baltimore's requirements, which require sidewalks within the road right-of-way. Legacy proposes to remove the area of right-of-way from the easement and seeks to consolidate the easement by removing wetland areas contained within individual lots from the easement in exchange for additional wetland that will be included as part of the commons area contained within the easement. Amending the 18.35 acre easement will reduce the easement to a new total of 17.65 acres. To offset wetland impacts within the right-of-way, Legacy proposes 2.16 acres of off-site wetland creation in Macomb Township that will also be placed under easement. Submit written comments to Colleen O'Keefe, Michigan Department of Environmental Quality, Land and Water Management Division, P.O. Box 30458, Lansing, Michigan 48909-7958 by July 16, 2007. PART 55, AIR POLLUTION CONTROL, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED. On June 25, 2007, the department's proposed amendments to the Air Pollution Control Rules (SOAHR 2005-037EQ) were filed with the Secretary of State and became effective immediately. The amendments to Part 8, Emission Limitations and Prohibitions—Oxides of Nitrogen; R 336.1802a, R 336.1803, R 336.1821 to R 336.1826, and R 336.1830 to R 336.1834, were developed to meet requirements of the U.S. Environmental Protection Agency's Clean Air Interstate Rule to reduce transported emissions of oxides of nitrogen from electric generating units and large non-electric generating units. The amendments can be viewed on the Web at www.michigan.gov/deqair (click on "Laws & Rules"). Copies of the amendments may also be obtained by contacting the Michigan Department of Environmental Quality, Air Quality Division, 525 West Allegan Street, P.O. PART 55, AIR POLLUTION CONTROL, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED. The Air Quality Division will be holding a public hearing on July 19, 2007 (see July 19 listing in this calendar) on the following four proposed rule packages:

2005-036EQ: Amend R 336.1401 to R 336.1407 addressing sulfur dioxide (SO₂) emitted in Wayne County. In addition, add R 336.1420 to reduce transported emissions of SO₂ from electric generating units as part of the Clean Air Interstate Rule federal requirements.

2007-005EQ: Rescind Part 12, Emission Averaging and Emission Reduction Credit Trading, R 336.2201 to R 336.2218, due to the lack of participation by the regulated community and lack of sufficient resources to maintain the voluntary trading program.

2007-006EQ: Amend R 336.1660 and R 336.1661 to reduce volatile organic compound content from additional consumer and commercial products manufactured, sold, or used in the state of Michigan.

2004-054EQ: Add Part 19, New Source Review for Major Sources Impacting Nonattainment Areas, R 336.2901, R 336.2901a, R 336.2902, R 336.2903, R 336.2907, R 336.2908, and R 336.2910. This is the second public hearing to address revisions to the definitions of "replacement unit" and "net emissions increase."

The proposed rules can be viewed on the Web at www.michigan.gov/deqair (click on "Laws & Rules"). Copies of the proposed rules may also be obtained by contacting the Michigan Department of Environmental Quality, Air Quality Division, 525 West Allegan Street, P.O. Box 30260, Lansing, Michigan 48909-7760. Written comments will be accepted until 5:00 p.m. on July 19, 2007, and should be mailed to the address above. REMEDATION AND REDEVELOPMENT DIVISION July 30 – August 29, 2007

SECOND ROUND OF APPLICATIONS (July 30-August 29, 2007) – TEMPORARY REIMBURSEMENT PROGRAM FOR LEAKING UNDERGROUND STORAGE TANK SITES. The Michigan Department of Environmental Quality (DEQ), Remediation and Redevelopment Division (RRD) will administer the second round of the Temporary Reimbursement Program (TRP) created by the July 20, 2006, amendments to Part 215, Refined Petroleum Fund (RPF), of the Natural Resources and Environmental Protection Act, 1994 PA 451.

Overview: The first round of the TRP allocated approximately \$26 million for owners and operators who had approved claims under the former Michigan Underground Storage Tank Financial Assurance (MUSTFA)¹ Program or persons with a valid assignment of an approved MUSTFA claim for high risk sites, provided certain other eligibility criteria were met. The TRP assists owners and operators in paying for newly incurred cleanup costs associated with releases from their petroleum underground storage tank systems. Note that the program is only for new costs incurred after approval of the pre-certification application. Funds remain for a second round of applications that will be accepted on a first-come, first-served basis. Applicants who were approved in the first round for a given site cannot reapply for the same site. Applicants denied in the first round due to the site risk not being a class 1 or class 2 before May 9, 2005, may reapply if the latest information shows that the site is a class 1 or a class 2. The eligibility criteria for the second round are the same as those for the first round except that the site risk of class 1 or class 2 must be based on the most recent data.

Eligible persons shall receive reimbursement of 80 percent of each approved work invoice, up to a maximum total reimbursement amount of \$50,000 per approved site. The remaining 20 percent, up to a maximum of \$12,500, is considered a co-pay amount to be paid by the applicant. If funds still remain after all allocations, the remaining money will be allocated on a prorated basis among the approved first and second round applicants. To receive funding, the applicant must retain a Qualified Underground Storage Tank Consultant (QC) to perform the corrective actions in accordance with Part 213.²

Application Timeframe: The application form for the second round will be available on the Web at 8:00 a.m. July 30, 2007, and will be accepted from July 30, 2007, through 5:00 p.m. August 29, 2007. Applications submitted outside this window will not be considered. Subscribers to the DEQ-RRD electronic mailing list (listserv) will also receive the application form when it is released.

For more information: Details on the program and the enabling legislation are available from the RPF – Temporary Reimbursement Program link on the RRD homepage at www.michigan.gov/degrdd. You can also navigate to this page from the DEQ's homepage at

www.michigan.gov/deq; from the left navigation menu select "Refined Petroleum Fund," then click on the link "RPF -Temporary Reimbursement Program."

In order to receive further updates on the TRP, the DEQ recommends that you subscribe to the Remediation and Redevelopment Division's electronic mailing list (listserv) by sending an Email message to rpf@michigan.gov.

Information Contacts: **Robert Reisner**, Funding Support Unit Chief, Remediation and Redevelopment Division, 517-335-6843, or Email at reisnerr@michigan.gov; and **Paula McAllister**, Temporary Reimbursement Program Unit Chief, Remediation and Redevelopment Division, 517-335-7251, or Email at mcallisp@michigan.gov.

PUBLIC MEETING REGARDING THE DRAFT FRANK AND POET DRAIN, BROWNSTOWN CREEK, and BLAKELY DRAIN-MARSH CREEK BIOTA TOTAL MAXIMUM DAILY LOADS (TMDLs). The Water Bureau is announcing the availability of three draft biota TMDLs for comment: Frank and Poet Drain, Brownstown Creek, and Blakely Drain-Marsh Creek. The Frank and Poet Drain, Brownstown Creek, and Blakely Drain-Marsh Creek watersheds are located in Wayne County and were included on Michigan's Year 2006 Section 303(d) list due to poor macroinvertebrate communities throughout the watersheds. The TMDLs are being developed to identify the necessary pollutant reductions to meet water quality standards. A public meeting will be held at the Taylor City Hall, 23555 Goddard Road, Taylor, Michigan. Comments on the TMDLs may be submitted to Kay Edly (Frank and Poet Drain) or Matthew Wesener (Brownstown Creek and Blakely Drain-Marsh Creek), Michigan Department of Environmental Quality, Water Bureau, P.O. Box 30273, Lansing, Michigan 48909-7773, by July 25, 2007. Copies of the draft TMDLs are available from Denise Page, 517-335-6969, or Email at paged@michigan.gov, or on the Web at www.michigan.gov/deg. Information Contact: **Kay Edly**, Water Bureau, 517-373-4633, or Email at edlyk@michigan.gov; or **Matthew Wesener**, Water Bureau, 517-335-4180, or Email at wesenerm@michigan.gov.

PUBLIC HEARING REGARDING PART 55, AIR POLLUTION CONTROL, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED. The Air Quality Division will be holding a public hearing on the following four proposed rule packages:

- 2005-036EQ**: Amend R 336.1401 to R 336.1407 addressing sulfur dioxide (SO₂) emitted in Wayne County. In addition, add R 336.1420 to reduce transported emissions of SO₂ from electric generating units as part of the Clean Air Interstate Rule federal requirements.
- 2007-005EQ**: Rescind Part 12, Emission Averaging and Emission Reduction Credit Trading, R 336.2201 to R 336.2218, due to the lack of participation by the regulated community and lack of sufficient resources to maintain the voluntary trading program.
- 2007-006EQ**: Amend R 336.1660 and R 336.1661 to reduce volatile organic compound content from additional consumer and commercial products manufactured, sold, or used in the state of Michigan.
- 2004-054EQ**: Add Part 19, New Source Review for Major Sources Impacting Nonattainment Areas, R 336.2901, R 336.2901a, R 336.2902, R 336.2903, R 336.2907, R 336.2908, and R 336.2910. This is the second public hearing to address revisions to the definitions of "replacement unit" and "net emissions increase."

The public hearings will be held at Constitution Hall, Brake Conference Room, Atrium South, 525 West Allegan Street, Lansing, Michigan. The proposed rules can be viewed on the Web at www.michigan.gov/deqair (click on "Laws & Rules"). Copies of the proposed rules may also be obtained by contacting the Michigan Department of Environmental Quality, Air Quality Division, 525 West Allegan Street, P.O. DEADLINE FOR PUBLIC COMMENT REGARDING PROPOSED GENERAL PERMIT CATEGORY FOR THE REPAIR OF OIL AND GAS PIPELINES IN THE STATE OF MICHIGAN. Pursuant to Part 301, Inland Lakes and Streams, and Part 303, Wetlands Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the Land and Water Management Division is proposing to issue a new General Permit (GP) to facilitate the repair of oil and gas pipelines that cross inland lakes, streams, and wetlands as required by the provisions of the federal Pipeline Safety Improvement Act. Parts 301 and 303 authorize the issuance of GPs for categories of activities that are similar in nature, will cause only minimal adverse environmental effects when performed separately, and will have only minimal cumulative adverse effect on the environment. If this GP is approved, the DEQ may review and authorize specific pipeline repair projects in an accelerated manner without issuance of any additional public notice. In order to qualify for authorization under this GP, criteria specified in the proposed GP must be met. These criteria include conformance with defined standard procedures and Best Management Practices. The detailed draft GP can be found at www.michigan.gov/deqinlandlakes or may be requested from the address given below. Written comments should be submitted directly to the Michigan Department of Environmental Quality, Land and Water Management Division, P.O. Box 30458, Lansing, Michigan 48909-7958 to the attention of Peg Bostwick. All comments must be received by

Wednesday, July 25, 2007. Information Contact: **Peg Bostwick**, Land and Water Management Division, 517-335-3470.

AUGUST 8, 2007

DEADLINE FOR AIR POLLUTION COMMENT PERIOD ON CONSIDERATION OF CLEAN COAL TECHNOLOGY IN AIR USE PERMITTING. The Michigan Department of Environmental Quality (DEQ) is taking public comments until August 8, 2007, on the DEQ's proposal to include clean coal technology as part of the air permitting process for new coal-fired electric generation in the state of Michigan. Specifically, consideration of Integrated Gasification Combined Cycle (IGCC) technology is proposed to be required as a part of the Best Available Control Technology (BACT) determination. The public comment period is to allow all interested parties the opportunity to comment on the DEQ's proposal. Both federal and state regulations require the use of BACT in the permitting of large air emission sources, such as coal-fired power plants. The federal and state Prevention of Significant Deterioration regulations require that BACT be applied for each pollutant subject to the regulations. BACT is an emission limit based on the maximum degree of reduction for a pollutant and is determined on a case-by-case basis. It is important to note that the BACT limit cannot result in an impact above an air quality standard or any state or federal regulation. Additionally, BACT takes into consideration control options that are achievable through the application of available methods, "including fuel cleaning or treatment or innovative fuel combustion techniques." The DEQ is proposing that IGCC be considered along with other available methods for BACT review as part of the permitting process for coal-fired electric generating units. A copy of the DEQ's fact sheet is available for inspection on the Air Quality Division Web page at www.michigan.gov/deqair; at the Michigan Department of Environmental Quality, Air Quality Division, Constitution Hall, 3rd Floor North, 525 West Allegan Street, Lansing, Michigan 48933 (phone: 517-373-2856); or you may request a copy be mailed to you by calling 517-241-7468. The public is encouraged to present written views on the DEQ's proposal. Written comments should be sent to William Presson, Acting Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan, 48909-7760. All statements received by August 8, 2007, will be compiled and provided to the DEQ Director for his consideration. Information Contact: **William Presson**, Air Quality Division, 517-373-1209.

AUGUST 8, 2007

DEADLINE FOR PUBLIC COMMENT REGARDING ANR REED CITY COMPRESSOR STATION (SRN: B3721), REED CITY, OSCEOLA COUNTY, for the proposed approval of a draft renewal of a Renewable Operating Permit (ROP) for the operation of the Reed City Compressor Station – a natural gas transmission and compression station which operates two natural gas storage fields, the Loreed and the Reed City Stray Storage Fields. The station utilizes nine natural gas-fired engines for transmission and processing glycol dehydration systems which are used to remove liquids that are transported out of the reservoirs with the gas. The emissions from the glycol dehydrators are controlled by thermal oxidizers. The draft permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at www.michigan.gov/deqair. The responsible official of the stationary source is Tracy Purcell, Director of Operations, 1001 Louisiana Street, Environmental Air Group – Suite S1103A, Houston, Texas 77002. Comments on the draft permit are to be submitted to Allen Retlewski, Michigan Department of Environmental Quality, Air Quality Division, Cadillac District Office, 120 West Chapin, Cadillac, Michigan 49601. The decision-maker for the permit is Janis Denman, District Supervisor. If requested in writing by August 8, 2007, a public hearing may be scheduled. Information Contact: **Allen Retlewski**, Air Quality Division, 231-775-3960, extension 6252.

2008 SECTIONS 303(d), 305(b), AND 314 INTEGRATED REPORT – DRAFT ASSESSMENT METHODOLOGY. The Michigan Department of Environmental Quality (MDEQ), Water Bureau (WB), is accepting written comments on the draft assessment methodology for the Water Quality and Pollution Control in Michigan, 2008 Sections 303(d), 305(b), and 314 Integrated Report. Every two years, the DEQ WB, prepares and submits an Integrated Report to the U.S. Environmental Protection Agency to satisfy the listing requirements of Section 303(d) and the reporting requirements of Sections 305(b) and 314 of the federal Clean Water Act. The Integrated Report describes the status of water quality in Michigan and includes a list of water bodies that are not

attaining Michigan Water Quality Standards and require the establishment of pollutant Total Maximum Daily Loads (TMDLs). The assessment methodology will ultimately be a chapter in the 2008 Integrated Report and includes a description of the data and information that are used to determine designated use support, how the WB makes designated use support determinations, and how the WB delists TMDL classified assessment units. The draft assessment methodology can be viewed on the Web at www.michigan.gov/deq. Comments may be submitted by August 9, 2007, to **Sarah LeSage**, Michigan Department of Environmental Quality, Water Bureau, 525 West Allegan Street, P.O. Box 30273, Lansing, Michigan 48909-7773, 517-241-7931, or Email at lesages@michigan.gov.

TURNING REACH INTO AN OPPORTUNITY: A TRAINING ON IMPLEMENTING THE EUROPEAN UNION'S NEW REACH LEGISLATION, LANSING COMMUNITY COLLEGE WEST CAMPUS, LANSING, MICHIGAN. REACH – Registration, Evaluation, and Authorization of Chemicals – is the recently adopted overhaul of the chemicals management system in the European Union (EU). Entered into force June 1, 2007, REACH has important implications for U.S. firms exporting to European Member States. In order to help U.S. companies implement REACH and move beyond the law toward sustainable chemicals management, the Michigan Department of Environmental Quality and Lowell Center for Sustainable Production are presenting this training. Attend this one-day training to learn from one of the few REACH authors and other experts about what you need to know to comply with REACH, stay competitive, and advance more sustainable chemicals management in your firm. Any company which exports chemicals or chemical mixtures into the EU; competes in Europe, the U.S. or elsewhere with products meeting European standards; or exports finished products to Europe should attend this training. Attendees will receive a database of tools and resources to help them make informed decisions about chemicals alternatives. For complete conference agenda and registration information, go to www.chemicalspolicy.org/registration/shtml. Registration fee is \$100 and includes continental breakfast, lunch, and conference materials. Pre-registration and pre-payment are required.
